TAILOR-MADE NATURAL STONE PROJECTS.

TINO is the leading group in natural stone service providers, occupying a competitive position internationally.

We are the company of reference. Created from the local level and with an unequivocal international vocation thanks to the quality and to the unique design of our products.

We turn ideas into works of art.

Our creative clients will find TINO to be a safe bet. That is because our group's identity is based on satisfying their needs and giving meaning to their ideas and projects. And for this we offer the most prized raw material: Stone. The basic element to build their designs.

WHY CHOOSE TINO?

35+ YEARS OF EXPERIENCE

Since 1980. The history of Tino is closely related to the evolution of architecture and design in natural stone. It is the personal work of a self-taught company that has believed in the great possibilities of an industry deeply rooted in nature.

MORE THAN 600 PROJECTS

Tino is a reference point in the world of natural stone. The quality and precision in its services make this company unique. Some of Tino's greatest projects are a living testimony to this.

PRESENT IN MORE THAN 50 COUNTRIES

Tino is proud to be present in projects in more than 50 countries around the world from China to Panama, via Dubai and the United States, among others. Each project has been developed using only the most exclusive products extracted from the most remote corners of the planet.

HIGH PRODUCTION CAPACITY

Our global network of partners enables the company to meet the requirements and needs of any type of project from large hotel chains to large palaces and mosques.

WIDE PORTFOLIO OF PRODUCTS

In Tino we find the stone of your dreams. We offer more than 40 products in our portfolio and we have more than 500 references of materials allowing our clients a wide range of possibilities in their designs.

ENVIRONMENTALLY FRIENDLY

It is a 100% natural product whose extracted base material is not altered. Natural stone is the most recommended product for LEED certification. It is a recyclable product.

HOW WE WORK

Throughout the development of a project, Tino provides you with access to the following services via our best professionals.

- ♦ **Previous services in the design phase:** Sample approval, Showrooms, Design Inspirations, 3D renders.
- ♦ **Global supply:** own resources, extraction in quarries in more than 50 countries, global network of collaborators, selection of block at source.
- ♦ **Production in factory with “cut to measure”:** own resources, global network of collaborators, special pieces, quality control.
- ♦ **Full support in all phases of the project:** Material classification, selection of table, technical solutions, packing + packing list, logistic assistance.
- ♦ **Tino Stone care:** Manual installation and maintenance assistance, factory treatments and on-site treatments, replacements.

R&D AND INNOVATION.

The DNA of TINO is comprised of a constant spirit of innovation.

We look for continued progress in the development of new projects, new experiences contrasted in the form of patents, innovative product lines, services, machinery, etc. managing and using all this knowledge combined with experience.

This spirit of constant evolution gives us a real chance to transform the basic raw materials used in our world into differentiated products. The result of this R+D+I process is illustrated on our exclusive line of products of engineered stone: Tino + I Line.
